RM-B1741

English

Product Characteristic:
Thank you for using our company remote control product. RM-B1741 is a newly developed universal remote control product for Android Box, Android TV and IPTV. Please try it after installing batteries at first time, if all functions can work normally, you can use directly without setting. If it can't work well, you need to make the following setting, then you can use for your device.

Automatic Search :

Press and hold "OK" button for about 6s, the remote control will enter into automatic search, when volume is changed on your TV, release the "OK" button at once, setting is finished.

Restore Factory Mode :

Press "POWER" and "0" buttons at the same time until the remote control indicator light flashes 3 times and then release, the remote control is restored to factory mode.

LEARNING OPERATION

- 1, Press and hold the "SET" button until the indicator light is on, it means the remote control has entered a learning mode.
- 2, Press any button that needs to be learned within in 10 seconds, and the indicator light will flash slowly. At this time, the button will wait for learning.
- 3, Place the original remote control that needs to be learned directly against this remote control, at a distance of 1-3CM, without shaking. Press the button of original that needs to be learned, and at this time, the remote control indicator light quickly flashes 3 times and remains on, indicating successful learning.
- 4, Repeat steps 2-3 to learn other buttons. After learning all buttons, press "SET" button exit the learning state and save the learned functions.

Quick Switching Settings:

Press the "POWER" button and the corresponding model button until the remote control indicator light flashes 3 times and then release buttons to complete the setting.
